Appendix A

LinkedIn 6-month Budget

Budget Line Item	Cost (6 mo)	Rationale & Sources
2 × Sales Navigator Core Licenses	\$1,740 CAD (~C\$145 × 2 × 6 mo)	LinkedIn published Core pricing is C\$144.99/month per license for Sales Navigator Core. LinkedIn Business Solutions Having two allows two sellers / business-development leads to build and manage lists, connect with HR / event planners, and use InMails.
Paid Content (Sponsored Posts / Message Ads)	\$3,600 CAD (≈ C\$600/mo)	Based on LinkedIn’s B2B targeting value: you’re targeting HR, People Ops, founders, travel managers, event pros, etc. Neil Patel’s analysis shows that LinkedIn’s value comes from “decision-maker” targeting and its ability to hit business audiences. Neil Patel Given that B2B CPC is high, a monthly \$600 spend allows for sustained reach among a precise, high-value audience.
Connection & InMail Cadence / Outreach (via Navigator)	\$1,000 CAD (approx)	Use Sales Navigator to build segmented lead lists, send value-first connection requests + InMails, and do proactive outreach. With 2 licenses, each rep could send 15–20 connection requests/week + follow-up InMails. Research and LinkedIn’s ABM framework suggest this kind of cadence builds pipeline. (Neil Patel’s advice supports focusing LinkedIn spend on “who really matters”: job titles, seniority, decision-makers.) Neil Patel
Analytics & Optimization	\$300 CAD (≈ C\$50/mo)	Use LinkedIn Campaign Manager + Sales Navigator analytics to track connections, message response rate, meetings booked, and conversions. Use LinkedIn’s B2B KPI guide (CPC, CTR, conversion) to iteratively optimize. LinkedIn Business Solutions
Contingency / Buffer	\$210 CAD (~5%)	To allow flexibility for bid fluctuations, boosting, or message experiments.
TOTAL (6 months)	≈ \$5,850 CAD	This fits within a mid-range of your remaining budget (adjust if needed vs event spend).
